

# SHP Implementation Science Academy Clinical Masterclass

## 2024 Frequently Asked Questions (FAQs)

### 1. Why have an EOI process?

- As the demand for education and training is high, we would like to ensure that people are committed to participating in the Masterclass.
- EOI's to join the Masterclass are invited from health care professionals, researchers, and postgraduate students, with first preference being given to applicants from SHP partner organisations. For more information, please see: [Partners » Sydney Health Partners](#)
- EOI's are encouraged from members of the Sydney Health Partners Clinical Academic Group Program. For more information about the Clinical Academic Group Program please see: [Clinical Academic Group Program](#)
- Applicants should have demonstrated experience in the health system (e.g., qualifications and experience in nursing, allied health, medicine, quality improvement, health services management, health economics, public health, health policy, behavioural medicine etc.)
- SHP has designed the Masterclass as a practical introduction to the science of implementation for health professionals and health researchers. The aim is to build capacity and expertise across SHP through providing an in-depth introduction to Implementation Science within the healthcare system.

### 2. Why do I need to conduct my research within a Sydney Health Partners (SHP) partner organisation?

- There is significant demand for Implementation Science education and training opportunities in Australia and there is limited capacity in the SHP Masterclass. The Masterclass aims to support and build capacity in Implementation Science while still ensuring a focus on the clinical priorities of our Partners. We want to ensure our Partners benefit from the capacity building activities we offer as part of the SHP Implementation Science program.

### 3. Why do I need to stipulate current or future plans for funding?

- A major priority for SHP is to provide support and services that encourage innovation. The Masterclass is an opportunity for researchers and health professionals to develop innovative concepts. We want to ensure the future success of these projects which is why a plan to apply for grant funding is requested. It ensures these innovative projects can continue to be developed and supported into the future.

### 4. Why do I have to sign up to become a member of the SHP Implementation Science Academy online Community of Practice (CoP)?

- Signing up to become a member of the SHP Implementation Science Academy online CoP is quick and easy. You can sign up [here](#).
- By signing up, you will get access to Implementation Science resources that will be used as part of the Masterclass. It will also provide you with an opportunity to engage with other members of the CoP to share insights and learnings from the Masterclass.

## 5. How do I apply?

Please submit the following documents Friday the 15<sup>th</sup> of March

[shp.implementationscience@sydney.edu.au](mailto:shp.implementationscience@sydney.edu.au)

- EOI Form
- Three-page concept outline (plus an optional one-page of references)

## 6. How will I find out if my EOI has been successful?

- The timeline for notification of EOI outcome for the Clinical Masterclass can be seen below
